

## LETTER OF INTENT TO JOIN

### CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE

It is with great pleasure that I sign on to the Children's Environmental Health Collaborative. This letter indicates the Academic Toxicology Unit of the Faculty of Medicine, University of the Republic's commitment to protect children's health and development from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative, we commit to the following activities.

1. Advocate for prioritizing children's environmental health in key international forums, including through joint co-branded communication and advocacy products, when feasible;
2. Contribute research on the specific impacts of climate change and environmental degradation on children's health and sharing guidance, tools and best-practices to protect children from these impacts;
3. Provide technical assistance, expertise and technical resources on children's environmental health;
4. Participate in joint convenings and promote coherent approaches to protecting children environmental health.

We agree to have our logo displayed amongst the list of partners on the Collaborative's website and working with UNICEF to advance children's health, development and well-being. We designate as a focal and Back up the following professors  
Prof. Dr Amalia Laborde and Dr. Alejandra Battocletti

Yours sincerely,

Dr Alba Negrin  
Head Professor.  
Academic Toxicology Unit, Faculty of Medicine.  
University of the Republic.
