

The LEAD Group Inc aims to eliminate lead poisoning globally and to ensure that the ecosystem is protected from lead in all its uses. **ABN 25 819 463 114**

LETTER OF INTENT TO JOIN

CHILDREN'S ENVIRONMENTAL HEALTH COLLABORATIVE AND THE PARTNERSHIP FOR A LEAD-FREE FUTURE

It is with great pleasure that I sign on to the Children's Environmental Health Collaborative and the Partnership for a Lead-Free Future. This letter indicates The LEAD Group Inc's commitment to protect children from the impacts of climate change and environmental degradation.

As part of our contribution to the Collaborative and the Partnership, we commit to the following activities.

1. Advocate for prioritizing children's environmental health in relation to lead poisoning prevention and management and lead-safety's pivotal role in climate crisis avoidance, in key international forums, including through joint co-branded communication and advocacy products, when feasible;
2. Contribute research on the specific impacts of climate change and environmental lead pollution and other fossil fuel emissions on children's and adult's health and sharing guidance, tools and best-practices to protect children and adults from these impacts;
3. Provide technical assistance, expertise and technical resources and children's art competition opportunities (via www.volcanoartprize.com) on children's environmental health particularly in relation to lead poisoning prevention and management, including reduced use of fossil fuels (which all contain some lead);
4. Participate in joint convenings and promote coherent approaches to protecting children's environmental health and avoiding a climate crisis.

We agree to have our logos (see single image below) displayed amongst the list of partners on the Collaborative and Partnership's website and updated brochure, and working with UNICEF to advance children's health, development and well-being.

The LEAD Group Inc – working to
create a Lead Safe World

Yours sincerely,

A handwritten signature in black ink, appearing to read "Elizabeth O'Brien".

Elizabeth O'Brien aka Grandma Lead
Lead Scientist and Lead Advisor
